# How to make an Icon font using Adobe Illustrator?

Create a new file call it:
"your-project-name-icon.ai"

Set your canvas to **34 px** by **34 px**

Each icon has its own canvas

Give each canvas a logical name (use English)

Use 'Save as'
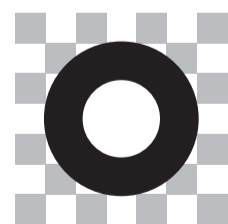

Save as 'SVG' & check 'Use Artboards'
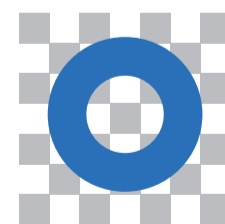

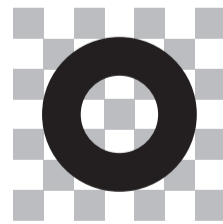

Save your exports in a seperate folder

Checklist

Don't use lines, only fills

Only use black, no white

No need to use colors
